

Fuel Charge Return Schedule – Registered Air Carrier

under the Greenhouse Gas Pollution Pricing Act

If you are a **registered air carrier**, use this schedule to calculate your total charge and your total rebate for the reporting period. If you are operating in **more** than one listed province, use a separate schedule for each additional listed province. Report the result on Form B400, Fuel Charge Return – Registrant. For instructions on how to complete this schedule, go to canada.ca/cra-fuel-charge.

Do not use this area.

1. Business information

Legal name: _____

Business number: _____

Enter the listed province for which you are filling out this schedule: _____

Reporting period: From

--	--	--	--	--	--

 Year Month Day to

--	--	--	--	--	--

 Year Month Day

2. Charge calculation

Enter the total quantity of each fuel type brought into or imported in the listed province during the reporting period. Also, enter the net fuel quantity calculated for the reporting period. If the result of the net fuel quantity is a positive amount, add this amount to the "Net fuel quantity" in the table below. If the result of the net fuel quantity is a negative amount, add this amount to the "Rebate calculation" in the table of Part 3. To find the applicable rate, go to canada.ca/cra-fuel-charge-information.

	Litres	Litres
	Aviation gasoline	Aviation turbo fuel
Additions		
Brought into a listed province		
Imported in a listed province	+	+
Net fuel quantity	+	+
Other, specify:	+	+
Total additions	A =	=
Rate (dollars and cents)	B ×	×
Charge (A × B)	C =	=
Total charge for that listed province ► Add all charge amounts from line C.		
Enter this result under the "Charge" column in Part 2 of Form B400 for the appropriate listed province.		=
