Part 3 – Calculating RRSP, PRPP and SPP withdrawals eligible for designation as qualifying withdrawals

Provide proof of the amount on line F below by attaching a photocopy of the T4RSP or T4A slip issued for the withdrawal. If the T4RSP or T4A slip has not yet been issued, have the RRSP issuer, the PRPP or SPP administrator complete Part 4 of this form.

If the amount on line H is less than the amount on line E, you will have to withdraw additional amounts from your RRSPs, PRPPs or your SPPs to have the provisional PSPA certified. If you do not want to withdraw additional amounts from your RRSPs, PRPPs or your SPPs, you do not have to file this form. However, the provisional PSPA will not be certified and the past service benefits to which the provisional PSPA relates cannot be provided to you.

If the amount on line H is equal to the amount on line E, you have to designate the full amount entered on line H.

If the amount on line H is more than the amount on line E, you have to designate an amount that is at least equal to the amount on line E. However, you can designate any amount up to the amount on line C or the amount on line H, whichever is less.

General information**Registered retirement savings plan (RRSP), pooled registered pension plan (PRPP) and specified pension plan (SPP) qualifying withdrawals**

Under the Income Tax Act and the Income Tax Regulations, a qualifying withdrawal can be made from an RRSP, a PRPP, an SPP, or a combination of these registered plans.

Generally, a qualifying withdrawal is an amount that you withdraw from your registered plan to allow you to receive post-1989 past service benefits under a defined benefit provision of your employer's registered pension plan (RPP). The value of the RPP benefits is measured and is called a past service pension adjustment (PSPA).

This form has to be used if a member of a defined benefit RPP designates an amount withdrawn from an RRSP, a PRPP, or an SPP as a qualifying withdrawal in connection with the certification of a provisional PSPA.

The withdrawal has to be included in your income for the year you receive it

It also has to meet the conditions shown on the first page of this form. If these conditions are met and you designate an amount as a qualifying withdrawal, we can certify your PSPA. Our certification allows your RPP administrator to credit you with past service benefits under the RPP. Use this form to designate the withdrawn amount.

If we cannot certify your PSPA because it is more than the allowable amount, we will send you a qualifying withdrawal letter and another Form T1006. The letter will ask if you want to designate a qualifying withdrawal so that we can certify your PSPA.

If you designate a qualifying withdrawal, complete the form and send us a copy. We will then determine if we can certify the PSPA. If you do not designate a qualifying withdrawal, we will not approve the certification request. We will tell the RPP administrator that the past service benefits related to the PSPA cannot be provided to you.

Note

When your RPP administrator requests that we certify Form T1004, Applying for the Certification of a Provisional PSPA, the administrator may already know that the past service benefits cannot be certified unless you designate a qualifying withdrawal. In this case, your administrator may ask if you want to designate a qualifying withdrawal. If you choose to make this designation, the administrator may also ask you to complete this form so that they can send it to us with the certification request. If this happens, we will not send you a qualifying withdrawal letter or ask you to complete another Form T1006.

Information for RRSP issuers and PRPP or SPP administrators

All RRSP withdrawals have to be reported on a T4RSP slip for the year they are received. For more information, see Guide T4079, T4RSP and T4RIF Guide.

SPP and PRPP withdrawals are reported on T4A slips. For more information, see Guide RC4157, Deducting Income Tax on Pension and Other Income, and Filing the T4A Slip and Summary.

Additional information for completing Part 2**Note 1**

This amount is the total of:

- any PSPA exempt from certification in the previous year (total amounts from all T215 slips for that year)
- any previous PSPA that was certified in the current year (total amounts from all T1004 Forms that we approved in the current year)

Note 2

This amount is the total of all qualifying withdrawals made by an individual for the purposes of any previous PSPA that was certified in the current year.

Instructions for completing this form

We will complete Parts 1 and 2 of this form before we send it to you. Use Part 3 to calculate the amount of your withdrawal that is eligible to be designated as a qualifying withdrawal. In some cases, your RPP administrator may ask you to complete this form before the administrator sends us Form T1004. If this is the case, complete **Parts 1, 2, and 3**. In either case, attach copies of the T4RSP and/or T4A slips related to the amounts you are designating in Part 3 as a qualifying withdrawal. If you have not received your T4RSP or T4A slips, ask your RRSP issuer or your PRPP or SPP administrator to complete Part 4 of the form before you send the completed form back to us. The plan issuer or administrator has to complete the form and return it to you no later than 30 days after receiving your request to complete Part 4.

Where to send this form

If we ask you to complete this form, return a copy to the address shown on the request. If your RPP administrator asks you to complete this form, return it to the administrator, who will send it to us. In both cases, keep a copy for your records.
