- If you are a corporation that has acquired qualified property, or that has acquired equipment used to produce or conserve energy, mainly to manufacture or process goods for sale or lease, or you are a corporation that has unused Manitoba manufacturing investment tax credit at the end of the previous year, use this schedule to claim a tax credit against the Manitoba corporation income tax payable. The applicable rate is **9%** before July 1, 2019, and **8%** after June 30, 2019.
- The tax credit will be first applied to reduce the Manitoba corporation income tax payable and any remaining amount earned in this tax year may be refunded. The maximum refundable part of this credit is 8/9 of earned credits for qualified property acquired before July 1, 2019, and 7/8 of earned credits for qualified property acquired after June 30, 2019. Any unused investment tax credit can be carried forward up to 10 years or carried back to any of the 3 previous years.
- You may renounce all or part of your manufacturing investment tax credit earned in the current tax year. If the renunciation is filed by the filing due date for the year, you are deemed to never have received, been entitled to receive or had a reasonable expectation of receiving the renounced amount. If the renunciation is filed within a 365-day period immediately following the filing-due date, you are deemed to never have received, been entitled to receive or had a reasonable expectation of receiving the amount, **except** for paragraph 37(1)(d) and subsections 127(18) to (20) of the federal Income Tax Act.
- **Manufacturing or processing** is defined under subsection 125.1(3) of the federal Income Tax Act and includes qualified activities under section 5202 of the federal Income Tax Regulations.
- Qualified property is **new** and **used** prescribed buildings, machinery, and equipment used by the corporation in Manitoba mainly to manufacture or process goods for sale or lease. Qualified property includes Class 43.1 or 43.2 property that the corporation acquired after **April 22, 2003**, and is used by the corporation in Manitoba to produce energy or to conserve or reduce the need to acquire energy. Qualified property includes property leased for the same purposes to a lessee who is not exempt from tax under section 149 of the federal Income Tax Act.
- Property acquired has to be **available for use** by the corporation, as determined under subsections 13(27) and 13(28) of the federal Income Tax Act, **without reference** to paragraphs 13(27)(c) and 13(28)(d).
- The Manitoba manufacturing investment tax credit (MMITC) is considered government assistance under paragraph 12(1)(x) of the federal Income Tax Act and must be included in income in the tax year the credit is received. The MMITC is not considered government assistance under section 7.2 of the Manitoba Income Tax Act for the purposes of calculating the credit itself.
- To claim this credit, file a completed copy of this schedule with your T2 Corporation Income Tax Return no later than **one year** after your filing due date in which the property was acquired.
