General information

Eligibility criteria

If you have an impairment in physical or mental functions, you can claim a disability supports deduction if you paid expenses that no one has claimed as medical expenses, and you paid them so you could carry out any of the following activities:

- be employed or carry on a business (either alone or as an active partner)
- do research or similar work for which you received a grant
- attend a designated educational institution or a secondary school where you were enrolled in an educational program

For 2020 and 2021, the requirements listed above do not have to be met if you were entitled to receive, in the year, any federal, provincial, or territorial government COVID-19 payments for which you have received a T4A or T4E slip, Employment Insurance benefits, Employment Insurance special benefits, or Quebec Parental Insurance Plan benefits.

If you lived outside Canada for part or all of the year and we consider you to be a factual or deemed resident of Canada, you can claim the expenses you paid to a non-resident person for services provided outside Canada.

Expenses you can claim

For a complete list of allowable expenses, see [Which expenses can you claim?](#) or see Guide RC4064, Disability-Related Information.

Expenses must be claimed in the same year they are paid. Unused amounts **cannot** be applied to another year.

Amounts you cannot claim

You **cannot** claim amounts that were reimbursed by a non-taxable payment such as insurance. From the total of all amounts you have paid, you have to subtract the amount of any reimbursement or other form of assistance that any person got or was entitled to get for these expenses and that is not included in someone's income. To do so, use the calculations under "Step 1 – Calculate your net disability supports expenses."

Supporting documents

Do **not** attach this form or your receipts to your tax return, but keep them in case we ask to see them at a later date.

Receipts must show the name of the company or individual to whom an expense was paid. When payments are made to an individual for attendant care services, the receipts should also show the individual's social insurance number.
